

Crypto Portfolio Balance Viewer - GUI Tool

This application provides an offline graphical interface for simulating crypto wallet balance data.

REQUIREMENTS:

- Python 3.9 or newer
- tkinter (included by default on Windows)

USAGE:

1. Open terminal or command prompt
2. Navigate to the folder
3. Run:

```
pip install -r requirements.txt
```

```
python crypto_gui.py
```

Then enter a wallet address and click "Check Balance". The app will simulate balance info and optionally export a report to .txt.

Note: This tool performs all actions offline.
